HYBRID SUIT REFLECTIVE

DW-HYBRT-RB

Description

Dromex® DW-HYBRT-RB jacket and pants suit is a strong, high visibility, lightweight, and durable work garment designed to provide the user with protection against mechanical hazards such as abrasion.

The DW-HYBRT-RB suit is a blend of 80% polyester and 20% cotton which is an economical alternative to 100% cotton with the benefits of sturdiness in polyester and comfort of the cotton.

This garment consists of the following:

Jacket features:

- Collared jacket.
- Concealed DRO (Dromex®) type 5 aluminium zip closure.
- High visibility lime silver reflective tape on arm for enhanced visibility when working in poor lighting environments.
- 2 Open waist pockets and 1 left breast pocket with a Dromex® sidewinder label and Monza flap closure.
- Stress points are reinforced with bar tacks for added durability.

Pants features:

- A concealed DRO (Dromex®) type 5 aluminium zip with metal button closure at waist.
- High visibility lime silver reflective tape on legs for enhanced visibility when working in poor lighting environments.
- Two front laid on pockets and a rear open pocket with Dromex® sidewinder label.
- Stress points are reinforced with bartacks for added durability.
- Inner elasticated waist for optimum fit and flexibility with 5 belt loops.

This garment is suitable for use in general work environments such as logistics, warehousing, construction, workshops, maintenance and repairs, janitorial, gardening and general purpose applications.

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection. These poly cotton garments are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the garment suitability for the intended use. This garment should be thoroughly inspected before use to ensure no damage is present.

Cleaning & Maintenance

- The following suggestions will help keep your garment neat and safe:
- Polycotton garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and settings are adhered to.
- Should home procedures not remove contaminants, then dry cleaning is recommended.
- Our recommended cleaning for these garments is as follows:
 - Pre-treat greasy stains and wash the garment in warm water with a light cleaning solvent.
 - Do not use Hypochlorite bleach or detergents containing Hypochlorite bleach as fading may occur.
 - Do not tumble dry.
 - Thoroughly rinse the garment to remove any wetting agents.
 - Iron the garment to on low heat.
 - Do not iron on reflective tape.
 - When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.
